TERMS OF PFRS PENSION RESTORATION

Terms of PFRS Pension Restoration

Pension Restoration Process

The following rules shall govern how accrued pensions, including COLA benefits, that are reduced as part of the Plan of Adjustment, shall be restored during the thirty year period following the Confirmation Order. The pension restoration process shall be supervised and restoration decisions undertaken by the Investment Committee of each of PFRS or GRS, or except as may be otherwise provided in the pension governance provisions set forth in the State Contribution Agreement and exhibits thereto.

GENERAL RESTORATION RULES

I. PFRS RESTORATION

1. Waterfall Categories

There will be three Waterfall Classes:

- a. PFRS Waterfall Class 1 – Retirees in retirement benefit pay status as of June 30, 2014, and their surviving spouses and beneficiaries
- b. PFRS Waterfall Class 2 – Retirees, who entered into retirement benefit pay status after June 30, 2014, and their surviving spouses and beneficiaries, and who are in pay status as of the end of the PFRS Fiscal Year prior to the year in which the restoration decision is made
- c. PFRS Waterfall Class 3 – All retirees, surviving spouses, and beneficiaries in pay status and all other PFRS participants who as of June 30, 2014 are not in retirement benefit pay status

2. General PFRS Pension Restoration Through June 30, 2023

Each year in conjunction with the annual actuarial valuation report, the PFRS actuary will project the PFRS Funded Ratio as of 2023 based upon the market value of plan assets relative to the actuarial accrued liabilities (the “Funded Level”). This projection will be further based upon a 6.75% assumed rate of investment return which is net of expenses, future employer contributions as set forth in the Plan of Adjustment and such other actuarial assumptions as utilized by the PFRS actuary. The Projected Funded Level will be 75%, and the Restoration Target will be 78%, both projected to June 30, 2023. If the actuary projects that Funded Level as of 2023 exceeds the Restoration Target (i.e., 78%), a credit of assets for bookkeeping purposes will be made into a notional Restoration Reserve Account. The notional credit will be an amount equal to the excess of assets above the amount needed to satisfy the Restoration Target. Each year thereafter, additional assets will be credited to the Restoration

Reserve Account equal to the net return on plan investments but capped at the actuarially assumed rate of investment return (i.e., 6.75% for the period through June 30, 2023) In the event of net losses, the credited asset value of the Restoration Reserve Account will be diminished.

Actual restoration payments and restoration credits will work as follows: each year in conjunction with the preparation of the annual actuarial valuation report and following establishment of the Restoration Reserve Account, the PFRS actuary will determine whether there are sufficient funds in such account to restore COLA benefits in a minimum amount of 10% or more. The minimum 10% restoration threshold is based on the 2.25% COLA benefit that applied to certain pension payments prior to reductions made by the Plan of Adjustment. For Example: If a retiree's then current COLA benefit is a 1.0% annual compounded COLA, the minimum incremental restoration would increase the COLA benefit to 1.225% (10% of the prior 2.25% COLA benefit equals .225%). COLA restoration only will occur if the funding level in the Restoration Reserve Account can fund 100% of the COLA increase over the actuarially-projected lives of the eligible recipient PFRS Waterfall Class. If the actuary certifies that the Restoration Reserve Account as of the end of the prior PFRS fiscal year satisfies the required funding level, then in the next immediate PFRS fiscal year, actual COLA restoration payments will be made to PFRS Waterfall Class 1 members until an amount sufficient to fund 66% of the value of their future COLA payments has been funded. At that juncture, and to the extent that additional assets in the Restoration Reserve Account will fully fund COLA restoration in at least one minimum 10% increment (i.e., amounts equal to 10% of the value of future COLA payments), PFRS Waterfall Class 2 members will receive COLA restoration until an amount sufficient to fund 66% of the value of their future COLA payments has been funded. At that juncture, and to the extent that additional assets in the Restoration Reserve Account will fully fund COLA restoration in at least one minimum 10% increment (i.e., amounts equal to 10% of the value of future COLA payments), PFRS Waterfall Class 3 members will receive COLA restoration on a pro-rata basis. For PFRS Waterfall Class 3 members who are in pay status at that time of restoration, they will receive COLA payments; for active employees at the time of restoration, they will receive credits granting them a right upon retirement to receive COLA restoration equal to the 10% increments that are fully funded to PFRS Waterfall Class 3 members. For Example: Assume there are sufficient assets credited to the Restoration Reserve Account as of the end of a fiscal year to fully fund 66% of the value of the COLA for all PFRS Waterfall Class 1 and Class 2 members. To the extent additional assets are available in the Restoration Reserve Account, to fully fund at least a 10% COLA increment, all retirees would receive a restoration payment of 76% of the value of their COLAs and a 10% COLA increment would be credited to eligible active employees which would be included in their benefit payments upon retirement (thus causing their COLAs to increase in value from 45% to 55%). Restoration amounts actually paid from the Restoration Reserve Account will be debited from such account.

Once restoration payments and credits begin, as long as the Restoration Reserve Account continues to have assets to fund 100%% of an incremental COLA restoration amount for such Waterfall Class for their actuarially projected lives, the restoration payments and credits will continue; provided, however, that in the event the PFRS Funding Level projected to 2023 falls below 76% (hereinafter, "Restoration Reserve Suspension Trigger"), then further allocations to the notional Restoration Reserve Account will cease notwithstanding the actual net PFRS investment returns for the fiscal year in question. Furthermore, if the PFRS funded level projected to 2023 falls below the Projected Funded Level (75%) then restoration payments to retirees and credits to active employees in the following year will be modified in the following manner: (1) funds previously credited to the Restoration Reserve Account will be notionally transferred and credited to the PFRS Pension Reserve Account in sufficient amounts to restore PFRS funded level to 75%; (2) if following such transfer, the remaining Restoration Reserve Account assets (if any) are sufficient to fully fund one or more COLA restoration increments (i.e., 10% COLA values) to one or more PFRS Waterfall Class categories, then as to such increments, the restoration payments shall continue.

In connection with preparation of the actuarial report for FY 2023, the PFRS actuary will determine whether PFRS has satisfied the Permanent Restoration Target of 78%. Transfers from the Restoration Reserve Account for credit to the PFRS Pension Reserve Account may be made in such amounts as are necessary to satisfy the Permanent Restoration Target. If the PFRS Ffunded Level as of June 30, 2023 is equal to or greater than the Permanent Restoration Target of 78%, then the amounts in the Restoration Reserve Account that fully fund incremental COLA restoration payments for a PFRS Waterfall Class shall be transferred from the Restoration Reserve Account and credited to the PFRS Pension Reserve Account and the applicable incremental COLA payments shall be permanently restored and shall no longer be variable.

3. General PFRS Pension Restoration from July 1, 2023 to June 30, 2033.

During this period, the Projected Funded Level will be [85%], the Restoration Target shall be [88%], and the Restoration Reserve Suspension Trigger shall be [86%] all as of 2033. The same rules for restoration payments that applied during the period ending June 30, 2023 shall apply except as follows. For purposes of determining whether the 2033 Restoration Target has been satisfied, the Plan actuary shall project investment returns through June 30, 2033 at the then current investment return assumption and the applicable actuarial assumptions as utilized in the annual actuarial valuation. Further, the Plan actuary shall assume, for purposes of satisfying the Restoration Target, that the annual City contribution amount shall be the annual amount of contributions necessary to fund the PFRS based upon an amortization of the actual 2023 UAAL (using the market value of assets) (with interest on the outstanding principal at

the then investment return rate) over 30 years (hereinafter, the “2023 UAAL Amortization”). To the extent that the City’s actual contributions to the PFRS in any of the FYs 2024 through 2033 are greater than the projected annual contribution under the 2023 UAAL Amortization, such amounts, and any investment earnings thereon, shall be notionally credited to a new bookkeeping account in PFRS called the Extra Contribution Account. In determining pension restoration during the period from FY 2023 through 2033, none of the amounts in the Extra Contribution Account shall be considered for purposes of determining the projected Funded Level for the Restoration Trigger. To the extent that the City’s actual contributions to the PFRS in any of the FYs 2023 through 2033 are less than the projected annual contribution under the 2023 UAAL Amortization, such difference and any investment earnings thereon shall be notionally allocated to the Restoration Reserve Account.

Each year in addition to the credit of assets above the Restoration Target, additional assets will be allocated to the Restoration Reserve Account, equal to the net return on plan investments, but capped at the then actuarial investment return assumption.

In connection with preparation of the annual actuarial valuation report for FY 2033, the PFRS actuary will determine whether PFRS has satisfied the Permanent Restoration Target of [88%]. Transfers from the Restoration Reserve Account for credit to the PFRS Pension Reserve Account may be made in such amounts as are necessary to satisfy the Permanent Restoration Target. If the funding level as of June 30, 2033 is equal to or greater than the Permanent Restoration Target of [88%], then the amounts in the Restoration Reserve Account that fully fund incremental COLA restoration payments for a Waterfall Class shall be transferred from the Restoration Reserve Account and credited to the PFRS Pension Reserve Account and the applicable incremental COLA payments shall be permanently restored and shall no longer be variable.

4. General PFRS Pension Restoration from July 1, 2033 to June 30, 2043.

During this period, the Projected Funded Level will be [92%], the Restoration Target shall be [95%], and the Restoration Reserve Suspension Trigger shall be [93%]. The same rules for restoration that applied during the period ending June 30, 2033 shall otherwise apply.

In connection with preparation of the annual actuarial valuation report for FY 2043, the PFRS actuary will determine whether PFRS has satisfied the Permanent Restoration Target of [95%]. Transfers from the Restoration Reserve Account for credit to the PFRS Pension Reserve Account may be made in such amounts as are necessary to satisfy the Permanent Restoration Target. If the funding level as of June 30, 2043 is equal to or greater than the Permanent Restoration Target of [95%], then the amounts in the Restoration Reserve

Account that fully fund incremental COLA restoration payments for a Waterfall Class shall be transferred from the Restoration Reserve Account and credited to the PFRS Pension Reserve Account and the applicable incremental COLA payments shall be permanently restored and shall no longer be variable.

TERMS OF GRS PENSION RESTORATION

Terms of GRS Pension Restoration

Pension Restoration Process

The following rules shall govern how accrued pensions, including COLA benefits, that are reduced as part of the Plan of Adjustment, shall be restored during the thirty year period following the Confirmation Order. The pension restoration process shall be supervised and restoration decisions undertaken by the Investment Committee of each of PFRS or GRS, or except as may be otherwise provided in the pension governance provisions set forth in the State Contribution Agreement and exhibits thereto.

GENERAL RESTORATION RULES

I. GRS RESTORATION

1. Waterfall Categories

There will be three Waterfall Classes:

- a. GRS Waterfall Class 1 – Retirees, in retirement benefit pay status as of June 30, 2014, and their surviving spouses and beneficiaries
- b. GRS Waterfall Class 2 – Retirees, who entered into retirement benefit pay status after June 30, 2014, and their surviving spouses, and beneficiaries, and who are in pay status as of the end of the GRS Fiscal Year prior to the year in which the restoration decision is made
- c. GRS Waterfall Class 3 – All other GRS participants who as of June 30, 2014 are not in retirement benefit pay status

2. General GRS Pension Restoration Through June 30, 2023

Each year in conjunction with the annual actuarial valuation report, the GRS Plan actuary will project the GRS Funded Ratio as of 2023 based upon the market value of plan assets relative to the Actuarial Accrued Liabilities (the “Funded Level”). This projection will be further based upon a 6.75% assumed rate of investment return which is net of expenses, future employer contributions as set forth in the Plan of Adjustment and such other actuarial assumptions as utilized by the GRS actuary. The Projected Funded Level will be 70%, the Restoration Target will be 75%, and the Restoration Reserve Suspension Trigger will be 71%, all projected to June 30, 2023. If the actuary projects that the Funded Level as of June 30, 2023 exceeds the Restoration Target (i.e., 75%), a credit of assets for bookkeeping purposes will be made into a new notional Restoration Reserve Account. The notional credit will be in an amount equal to the excess of assets above the amount needed to satisfy the Restoration Target. Each year thereafter, additional assets will be credited to the Restoration Reserve Account,

equal to the net return on plan investments, but capped at actuarially assumed rate of investment return (i.e., 6.75% for the period through June 30, 2023). In the event of net losses, the credited asset value of the Restoration Reserve Account will be diminished.

Actual restoration payments and credits will work as follows: Each year in conjunction with preparation of the annual actuarial valuation report and following establishment of the Restoration Reserve Account, the GRS actuary will determine whether there are sufficient funds in such account to restore a portion of the 4.5% across the board pension cuts in minimum incremental portions equal to $\frac{1}{2}\%$ of the monthly benefit for each member of GRS Waterfall Class 1 (i.e. reducing the initial across the board cut to 4.0%). This restoration only occurs if the funded level in the Restoration Reserve Account can fund 100% of each incremental increase over the remaining actuarially-projected lives of the eligible recipients in GRS Waterfall Class 1. If the Restoration Reserve Account satisfies the required funding level, then in the next GRS fiscal year, actual restoration payments will be made to Waterfall Class 1 members in amounts equal to the increments that have been fully funded in the Restoration Reserve Account. Once Waterfall Class 1 has sufficient assets in the GRS Restoration Reserve Account to fully fund and restore the 4.5% cut in their monthly benefits, and to the extent that additional assets in the Restoration Reserve Account remain and will fully fund at least $\frac{1}{2}\%$ of the monthly benefit for each member of GRS Waterfall Class 2, then GRS Waterfall Class 2 members will receive pension restoration in minimum $\frac{1}{2}\%$ benefit increments until an amount equal to the 4.5% cuts in their monthly benefits has been fully funded. At that juncture, and to the extent that additional assets in the Restoration Reserve Account remain and will fund at least a minimum $\frac{1}{2}\%$ of the monthly benefit of each member in GRS Waterfall Class 3, then each such member of the class shall receive a credit granting them a right upon retirement to receive pension restoration equal to the benefit increments that are fully funded.

After the full 4.5% across the board pension cuts are restored for all three GRS Waterfall Classes, and to the extent there are additional assets in the Restoration Reserve Account, such assets will be used to fully fund and restore a portion of the COLA values that were eliminated as part of the POA. COLA will be restored in minimum 10% COLA value increments up to 50% of the future COLA values for each member of GRS Waterfall Class 1, then up to 50% of the future COLA values for each member of Waterfall Class 2, and then up to 50% of the future COLA values for each member of Waterfall Class 3 until all members of the three GRS Waterfall Classes have had 50% of the value of their COLAs fully funded and restored. After 50% of the future values of COLA have been fully funded and restored, and to the extent there are additional assets in the Restoration Reserve Account for each of the three GRS Waterfall Classes, then a second 50% COLA restoration will be made, first to members of GRS Waterfall Class 1, then Waterfall Class 2, and then Waterfall Class 3. Classes will be restored in minimum 10% COLA value increments.

If the amounts in the Restoration Reserve Account are sufficient to fully-fund the 4.5% across the board pension cuts for all three GRS Waterfall Classes and 100% COLA restoration for all three GRS Waterfall Classes, then any additional assets in the Restoration Reserve Account shall be used to increase the frozen accrued benefits of active and other GRS participants whose ASF accounts were diminished as part of the ASF Recoupment, such that they receive treatment equal to the 20/20 CAP applied to retirees in pay status under the Plan of Adjustment. If after such pension restoration there are additional assets in the Restoration Reserve Account, GRS Waterfall Class 1 members will receive pension restoration in $\frac{1}{2}\%$ benefit increments of the reductions to their monthly pension due to ASF Recoupment, and once such pension benefits are restored, Waterfall Class 2 members will receive pension restoration in $\frac{1}{2}\%$ benefit increments in connection with the reductions to their monthly pensions due to ASF Recoupment.

Once restoration payments to applicable retirees and restoration credits to active employees begin, as long as the Restoration Reserve Account continues to have assets sufficient to fund 100% of an incremental pension restoration amount for such GRS Waterfall Class members for their actuarially projected lives, such restoration payments and credits will continue; provided, however, that in the event the GRS Funded Level falls below the Restoration Reserve Suspension Trigger, then further credits to the notional Restoration Reserve Account will cease notwithstanding the actual net GRS investment returns for the fiscal year in question. Furthermore, if the GRS funded level projected to 2023 falls below the Projected Funded Level (70%) then restoration payments and credits in the following year will be modified in the following manner: (1) funds previously credited to the Restoration Reserve Account will be notionally transferred and credited to the GRS Pension Reserve Account in sufficient amounts to restore GRS funding to 70%; (2) if following such transfer, the remaining Restoration Account Assets (if any) are sufficient to fully fund one or more pension restoration increments (e.g., a $\frac{1}{2}\%$ monthly pension benefit) to one or more GRS Waterfall Class categories, then as to such increments the restoration payments shall continue.

In connection with preparation of the actuarial report for FY 2028, the GRS actuary will determine whether GRS has satisfied the Permanent Restoration Target of 75%. Transfers from the Restoration Reserve Account for credit to the GRS Pension Reserve Account may be made in such amounts as are necessary to satisfy the Permanent Restoration Target. If the GRS Funded Level as of June 30, 2028 is equal to or greater than the Permanent Restoration Target of 75%, then the amounts in the Restoration Reserve Account that fully fund incremental pension restoration payments for a GRS Waterfall Class shall be transferred from the Restoration Reserve Account and credited to the GRS Pension Reserve Account and the applicable incremental COLA payments shall be permanently restored and shall no longer be variable.

3. General GRS Pension Restoration from July 1, 2023 to June 30, 2033.

During this period, the Projected Funded Level will be [82%], the Restoration Target shall be [85%], and the Restoration Reserve Suspension Trigger shall be [83%]. The same rules for restoration payments and credits that applied during the period ending June 30, 2023 shall apply except as follows. For purposes of determining whether the 2033 Restoration Target has been satisfied, the Plan actuary shall project investment returns through June 30, 2033 at the then current investment return assumption and the applicable actuarial assumptions as utilized in the annual actuarial valuation. Further, the GRS Plan actuary shall assume, for purposes of satisfying the Restoration Target, that the annual City contribution amount shall be the annual amount of contributions necessary to fund the GRS based upon an amortization of the actual 2023 UAAL at market value (with interest on the outstanding principal at the then investment return rate) over 30 years (hereinafter, the "2023 UAAL Amortization"). To the extent that the City's actual contributions to the GRS in any of the FYs 2024 through 2033 are greater than the projected annual contribution under the 2023 UAAL Amortization, such amounts, and any investment earnings thereon, shall be notionally credited to a new bookkeeping account in GRS called the Extra Contribution Account. In determining pension restoration during the period from FY 2023 through 2033, none of the amounts in the Extra Contribution Account shall be considered for purposes of determining the projected Funded Level for the Restoration Trigger. To the extent that the City's actual contributions in any of the FYs 2024 through 2033 are less than the projected annual contribution under the 2023 UAAL Amortization, such difference and any investment earnings thereon shall be notionally allocated to the Restoration Reserve Account. .

Each year, in addition to the credit of assets above the Restoration Target, additional assets will be credited to the Restoration Reserve Account, equal to the net return on plan investments, but capped at the then investment return assumption.

In connection with preparation of the annual actuarial valuation report for FY 2033, the GRS actuary will determine whether GRS has satisfied the Permanent Restoration Target ([83%]). Transfers from the Restoration Reserve Account for credit to the GRS Pension Reserve Account may be made in such amounts as are necessary to satisfy the Permanent Restoration Target. If the funding level as of June 30, 2033 is equal to or greater than the Restoration Target funded, then the amounts in the Restoration Reserve Account that fully fund at minimum one or more incremental pension restoration payments for a Waterfall Class shall be transferred from the Restoration Reserve Account and credited to the GRS Pension Reserve Account and the applicable incremental COLA payments shall be permanently restored and shall no longer be variable.

4. General GRS Pension Restoration from July 1, 2033 to June 30, 2043.

During this period, the Projected Funded Level will be [90%], the Restoration Target shall be [93%], and the Restoration Reserve Suspension Trigger shall be [91%]. The same rules for restoration that applied during the period ending June 30, 2033 shall otherwise apply.

In connection with preparation of the annual actuarial valuation report for FY 2043, the GRS actuary will determine whether GRS has satisfied the Permanent Restoration Target [91%]. Transfers from the Restoration Reserve Account for credit to the GRS Pension Reserve Account may be made in such amounts as are necessary to satisfy the Permanent Restoration Target. If the funding level as of June 30, 2043 is equal to or greater than the Permanent Restoration Target , then the amounts in the Restoration Reserve Account that fully fund at minimum one or more incremental pension restoration payments for a Waterfall Class shall be transferred from the Restoration Reserve Account and credited to the GRS Pension Reserve Account and the applicable incremental COLA payments shall be permanently restored and shall no longer be variable.
